

Site Skin Ads

Product Description

- Site Skin Ads Plugin for Revive Adserver takes over the entire background of the webpage. The ad also covers the left and right side of the website and shows a skinned ad in it, the position of the ads will remain static while scrolling and the ad appears in rich media ad format to attract the user. Site Skin ads will be click able and can direct users to an external site.

How to use the Mod?

- Login as Administrator account -> Switch to default manager
- Create an Advertiser -> Create a campaign -> Choose the type of the banner as **'Siteskin Background' / 'Siteskin Left / Right'** ☐ Fill mandatory fields ☐ Click save changes.

Site-Skin Left to Right Ads

Interested in delivering ads without occupying any space in your website? look no further than our slider transition ad format.

With Slider transition ad format, Ads slides in slowly from the bottom right side of the screen.

The beauty of this ad format is that the ads will get locked up to the bottom right side of the screen, making its position unchangeable while scrolling.

Slider transition ad format comes with user friendly click on close button, which slides out Ads slowly.

Premium and High-Impact site skin ad offer a very dynamic and visible rich media placement on publishers' websites.
