

Revive Adserver Mod

Plugins For Revive Adserver

IAB Slider Ad formats 5.5.2

Product Description :

The slider ads is used to display the ads in bottom right or left corner of the website, these ads will stay aside from the web content and will never annoy the customer.

The position of the ad will remain constant when the user scrolls the web page and it occupies a prominent position in the site.

Benefits :

As it appears as the layer over the page, it will not use any area of the Website and this provides the additional revenue to publishers.

Banner Creation:

After successfull plugin installation,

Switch to default manager → Create an advertiser → Create a campaign → Create a banner

Please choose the type of the banner

Upload a local banner to the webserver ▼
